By using InstaKPI, you agree to these terms.

These Terms of Service govern your use of InstaKPI, a free Tableau Viz Extension. Please read them carefully before using the extension.

ABOUT INSTAKPI

Stop spending hours formatting and creating the same calculations every time. InstaKPI turns a measure and a date field into a stunning, fully interactive KPI card in seconds — with zero manual setup. Just drag, drop, done. Supports 8 widget types: KPI Summary, YTD Scorecard, Bar Chart, Line Chart, Waterfall, Radial Bar, Funnel Chart, and Divider Line. Every element is fully customizable through a built-in formatting panel with support for multi-page layouts, dark and light themes, custom deltas, target tracking, and more.

InstaKPI runs entirely within your environment. It never transmits, stores, or has any access to your data. What you see on screen stays on screen.

InstaKPI is provided completely free of charge. There are no paid tiers, subscriptions, or hidden fees.
